To the Mines of Chibushua

A new railroad is building in the State of Chibushus from the Mexican Central line to the great mining camp of Perral, and probably beyond the Sierra Madre, at least as far as Balleses, a large min-ing town at the foot of the great range, Ground has just been broken a short distance north of the town of Jemines. The road will be broad-gauge. The chief engineer, H. A. Case, has selected a route which will avoid most of the dangerous places where sudden cloudbursts or heavy rains are apt to sweep away the road-bed, which places are so distressingly numerous on the Mexican Central line. The influx of American capital into the mining regions of that portion of Chibushus has lately become so great that the construction of this line has become an actual necessity for business as she knows how to run a the importation of machinery and supplies and the transportation of ore,
